Prof. Madeline Blount

Week 6:
VECTORS

Dall-E 2: cats learning C++ in the forest on '90's technology

Programmers while reviewing the codes

**WHEN YOU REALIZE YOU'VE
BEEN STARING AT THE CODE
FOR HOURS**

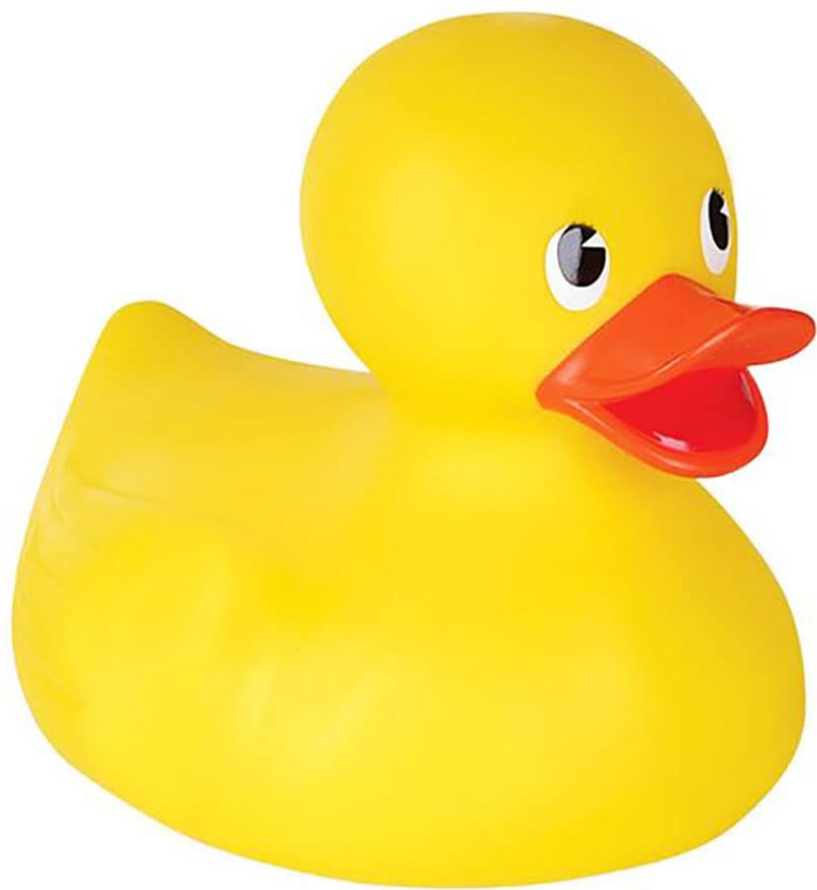

**AND THE ERROR WAS
JUST A MISSING COMMA**

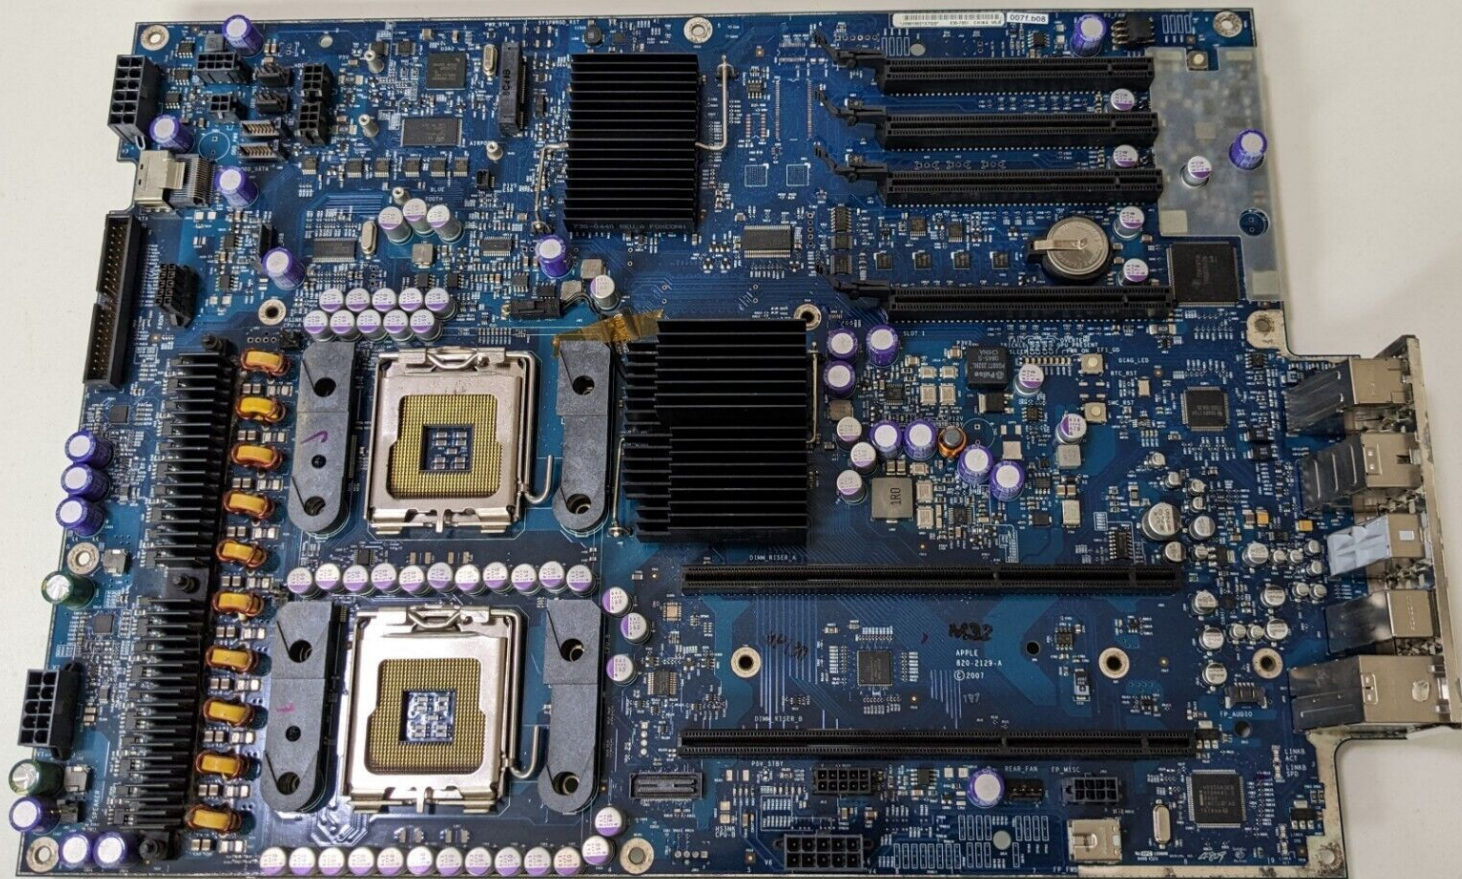

When there's a bug
in your code:

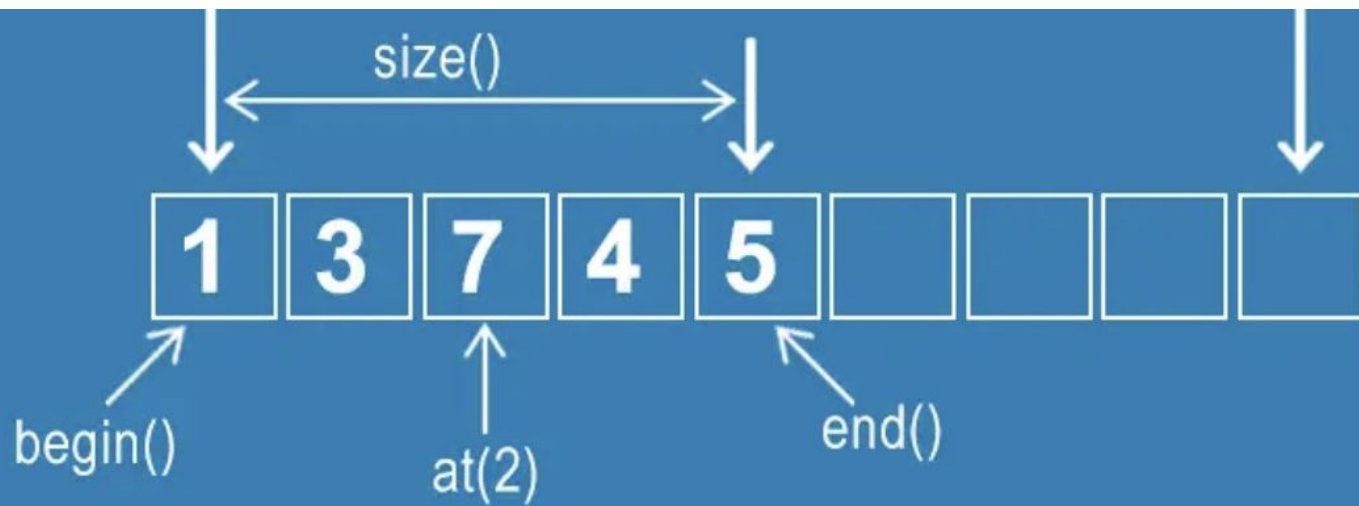

Programmers:

vectors!

CO2 emissions for a variety of human activities

Transformers are big models

Apart from a few outliers (like DistilBERT), the general strategy to achieve better performance is by increasing the models' sizes as well as the amount of data they are pretrained on.
